fluff-dri clothes  
*Automatically*  
in  
“Scientific Sunshine”

THE *Hamilton*

*fluff-dries clothes*

- ✓ indoors
- ✓ with no toil or worry
- ✓ in minutes, not hours
- ✓ automatically
- ✓ gently
- ✓ safely
- ✓ wrinkle-free
- ✓ any day or night
- ✓ regardless of weather
- ✓ Cuts ironing work 'way down !  
(Towels, pajamas and many other pieces, dried wrinkle-free, need no ironing.)
- ✓ Makes clothes delightfully sweet and fresh-smelling with exclusive Sun-E-Day ultra-violet light and ozone bath.

*Guards them from:*

- ✓ dust
- ✓ smoke
- ✓ air-borne bacteria
- ✓ theft
- ✓ damage or soiling by wind
- ✓ freezing
- ✓ sagging or breaking lines or poles
- ✓ romping children, playful pets, birds and flies.

# *Automatic* **Hamilton** CLOTHES DRYER ...Saves hours! Guards health!

*Quick and easy!* No more back-breaking labor or weather worries. Finish washday hours sooner. You avoid all the smoke and soot and air-borne dirt that go with old-fashioned backyard drying. Much of your washing will need no ironing at all — Hamilton tumbles the wrinkles out and fluffs it beautifully. PLUS SOMETHING MORE . . . SOMETHING REVOLUTIONARY, pioneered by Hamilton—

*Banishes Drudgery*

**EXCLUSIVE! NEW HAMILTON**

**SUN-E-DAY**

**ULTRA-VIOLET RAY LAMP**

Kills air-borne bacteria, and gives your clothes "Synthetic Sunshine" as they're gently fluff-dried! Released ozone gives—

**"Sunshine-and-Breeze" freshness!**

**NO MORE WASHDAY WEATHER WORRIES!**  
Rain, snow, sleet, wind, fog or dust make no difference to you with your new Hamilton! You'll dry your clothes fast as you wash them, better, more healthfully, regardless of weather! And they'll smell "Sweet as Fresh-Cut Clover" from the "Synthetic Sunshine" of the Sun-E-Day Lamp. Only Hamilton gives you "Synthetic Sunshine."

AUTOMATIC  
**CLOTHES DRYER**

**SAVE WORK...SAVE TIME...SAVE CLOTHES...DRY CLOTHES  
THE MODERN WAY WITH YOUR.....**

Almost every housewife will agree that the actual washing of clothes is a relatively simple matter nowadays.

But DRYING those clothes! That's something else again. That's where most of the work and worry enter the picture—unless you are a lucky owner of a Hamilton Automatic Clothes Dryer.

### HERE'S THE MODERN WAY TO DRY CLOTHES!

When you have a Hamilton Automatic Clothes Dryer, you merely snap on the switch, set the Automatic Temperature Control and start the dryer. Next, take the wet clothes as they come from your wringer or spinner and toss them into

your Hamilton. Clothes revolve with a slow, gentle, tumbling action in clean, warm air. In a matter of minutes, your clothes are ready to be taken out... soft, fluffy, ozone-treated, sweet-smelling. Towels, pajamas, etc., dry wrinkle-free.

### READY TO IRON IN 15 TO 25 MINUTES!

The Hamilton Automatic Clothes Dryer dries, ready for ironing, an average washer load of clothes in amazingly short time—just a few minutes. Time control switch can be set for various time periods, depending on type of clothing to be dried. Complete fluff-drying takes slightly longer. Holds a maximum washer load of 9 lbs. of dry clothes, and up to 18 lbs. of wet clothes in one load.

Approved by a long list of public utility

testing laboratories, the Hamilton Automatic Clothes Dryer is equipped with a thermostat which automatically controls the heat inside the drum so as not to exceed maximum drying temperature.

The Hamilton operates on an exclusive, patented principle that provides maximum, high-drying temperatures and rapid drying action.

The cabinet is beautifully styled... by one of the nation's leading designers.

### CHOOSE HEAT DESIRED

New heat control provides instant choice of temperatures. Simply set the control for "high," "medium" or "low" range, depending on the fabrics being dried. Automatic Heat Control maintains that temperature until drying is completed.

THE ORIGINAL AUTOMATIC  
CLOTHES DRYER

with new  
**SUN-E-DAY**  
ULTRA-VIOLET LAMP

Comes in gleaming White Dulux enamel... chip-proof, crack-proof. Sturdy steel construction, well insulated. Quiet as a whisper. Never needs lubrication. Dimensions: 31" wide; 39" high; 27½" deep.

## SAY GOODBYE TO WASHDAY WORRY...

**LET IT RAIN!** You can forget about the weather when you have a Hamilton Dryer. Sudden showers, high winds, snow, sleet, humidity, and low temperatures will mean nothing to you. It's always "fine drying weather" when you have a Hamilton Dryer in your home!

**TAKE IT EASY!** With your Hamilton Dryer there's no clothes line to put up... no lifting and carrying baskets of heavy wet clothes to the line outdoors... no hanging clothes on line. The amazing speed with which clothes dry in the Hamilton permits complete washing and ironing in one day!

**NEW SAFETY!** Drying clothes in your Hamilton means protection against dust, smoke or soot. Protects, too, against germ-carrying flies. Assures longer life to colored fabrics that fade in strong sunlight. Healthful, too, for the 190-degree heat, plus ultra-violet light, kills germs.
